EXPERIENCE

MOWA Consultora, Lima — FullStack Developer Jr

SEPTEMBER 2022 - NOW

Participation in the INNOVA project for omnichannel messaging and internal development needs.

- Created Lambdas in NodeJS to interface with AWS API Gateway.
- Developed scripts and queries to extract and retrieve data from DynamoDB.
- Implemented unit testing using Jest framework.
- Developed user interfaces using React.JS, Tailwind, FramerMotion, and Redux.
- Utilized Python for Speech To Text processing, consuming services from AWS, AZURE, IBM, and GCP.
- Documented APIs following OpenAPI 3.0 standards (Swagger).
- Developed application requirements in Java and Spring.
- Maintained legacy applications in Struts 2 (Java), ensuring continued functionality and stability.

Clínica San Andrés, Huaral — Intern Programmer

MARCH 2022 - JUNE 2022

Development of a landing page using EJS, HTML, and CSS.

- Integrated Facebook API to dynamically display the latest posts from the clinic's fan page.
- Designed and deployed an SQL database for data management.
